Frontend Technologies: React.js, HTML, CSS, Bootstrap, XML

Backend Technologies: Express.js, J2EE, JSP, Servlet, JDBC

Languages: JavaScript, Java

Tools: MySQL, SQL Server, Apache Tomcat, GitHub, VS Code, Firebase

Platforms: Windows, Linux, Web, macOS, Android

Soft Skills: Team Collaboration, Leadership, Public Speaking, and Communication

EXPERIENCE

SoftSynth Software Solution Pvt. Ltd.

Faridabad, Haryana

Full Stack Developer (Intern)- July 2022 - June 2023

- Collaborated on full-stack web applications, leveraging both frontend and backend technologies.
- Contributed to multiple client-facing projects using J2EE and modern web stacks.

PROJECTS

Career-Forge

- Developed a consultancy website for a UK client; delivered ahead of schedule.
- Used Express.js, HTML, CSS, and Bootstrap to build a responsive, cross-browser compatible UI.
- Improved user engagement through optimized design and intuitive navigation.

 career-forge.co.uk

Shikshasaar

- Built an NGO project using J2EE, JSP, Servlets, MVC, JDBC, and MySQL.
- Designed a dynamic contact module to enhance user interaction.
- Optimized database connectivity and JavaScript integration to reduce load times.

Gmail Clone (Mailing Web App)

- Developed mailing app with user-friendly interface to enhance UX.
- Utilized J2EE, JDBC, MVC, MySQL, JavaScript, HTML, and Bootstrap for full-stack implementation.
- Implemented secure mail features with category filtering, reducing user errors.
